

How to Make Money With Your Website

The Basics of Website Monetization

Resource List

Ecommerce Platforms

1. [Ecwid](#)
Ecwid is a shopping cart system that makes it easy to sell across different marketplaces like Amazon, eBay, Etsy, Facebook, and more. Their subscriptions start at only \$15/month, though they also have a limited free plan.
2. [Shopify](#)
Shopify is an ecommerce platform that is a website builder and shopping cart system all in one. Their plans start at \$29/month which includes hosting, a payment processor, and a lot of other features.

Print On Demand Services

1. [Printful](#)
Printful supports a wide variety of platforms, including Etsy, WooCommerce (WordPress), Wix, Shopify, Weebly, and more. With Printful, you can quickly and easily setup a shop and

start creating your products. The features and tools offered by Printful makes it a great choice for many businesses and entrepreneurs.

2. [Printify](#)

Printify is similar to Printful but with fewer features and integrations. Printify differs in that it works with different printer providers. When you create your products, you decide which ones to use that best suit the location and cost. While definitely not as awesome as Printful, Printify is still a great option for those that want to have some control over where their products are produced (as not all printers are the same - quality and prices can vary).
